Marketing & Merchandising

Quality Assurance

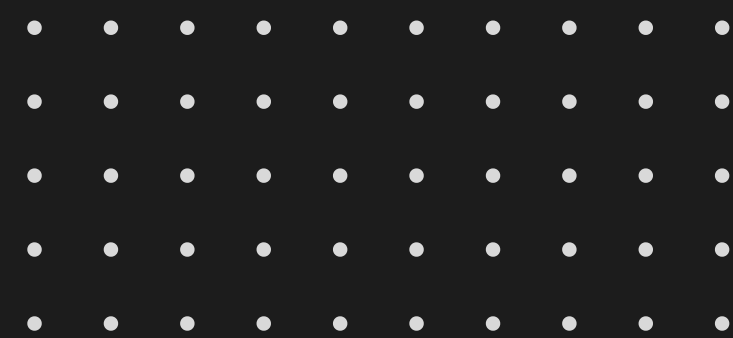

Our Team

Our team actively explores new markets and keeps our clients updated on new fabric trends, technological innovations, and global market developments.

From sample creation to production and shipment, we provide detailed follow-ups, status reports, and proactive issue resolution to ensure orders are delivered on time and to specification

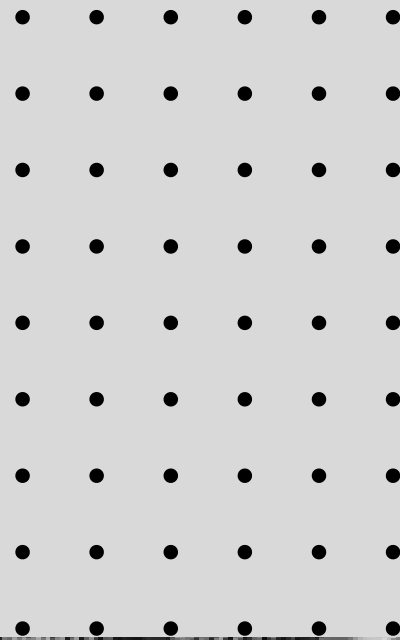

MAS Apparel Sourcing was built upon extensive research and deep industry knowledge. Our team not only ensures that we work with top-notch suppliers of raw materials but also integrates merchants, trimmings suppliers, and accessory specialists to add significant value to every garment we produce. We maintain close oversight from the yarn supply to the final product, ensuring the highest standards throughout each stage of production.

Our experts work hand-in-hand with buyers to guarantee timely delivery of the highest-quality apparel, ensuring a seamless experience from product sample creation to final shipment

Mission

We aim to provide exceptional sourcing services while improving working conditions through professional skill and ethical business practices. We are committed to upholding quality, service, and sustainability with every order, ensuring consistency and reliability for large and small buyers alike.

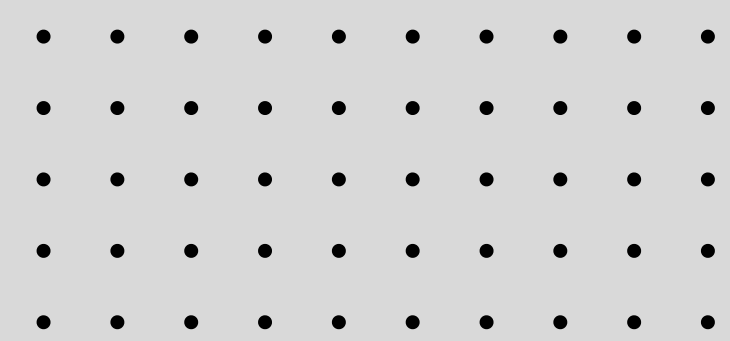

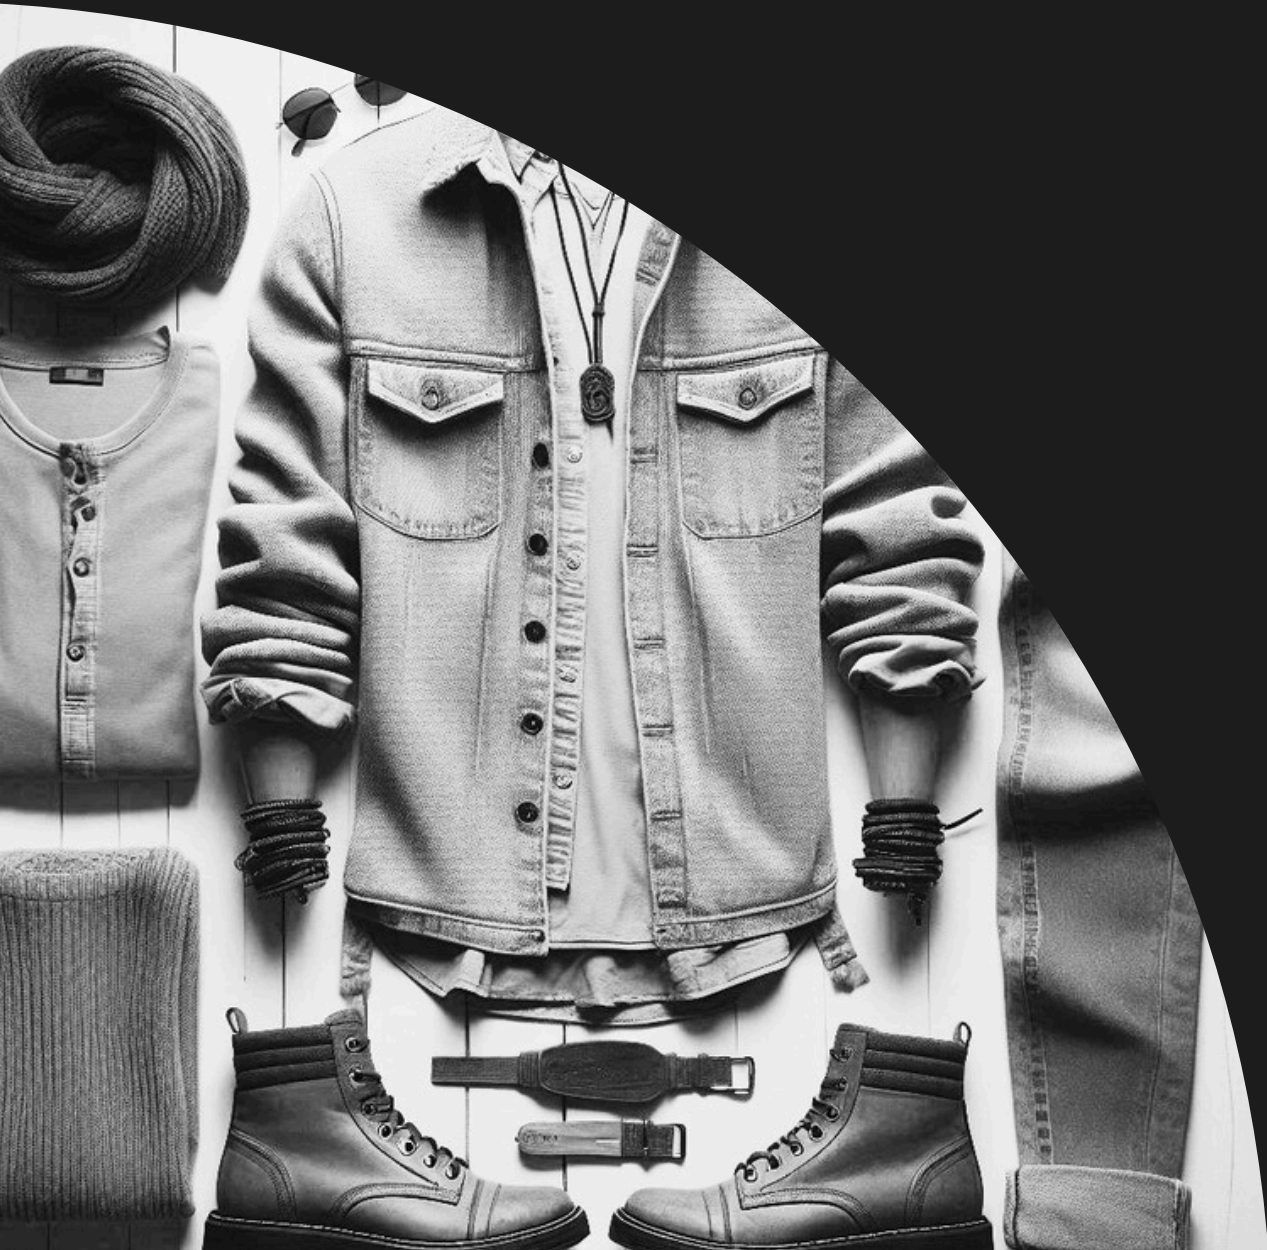

To consistently exceed customer expectations by delivering high-quality products on time, ensuring complete customer satisfaction while maintaining ethical and sustainable practices.

DEKO-TEX
CONFIDENCE IN TEXTILE
STANDARD 100

- **Organic Cotton:** GOTS-certified, free from harmful chemicals, and grown using sustainable farming practices.
- **Recycled Fabrics:** From recycled polyester made from post-consumer plastic bottles to recycled cotton from garment waste, we help reduce textile waste and promote circular fashion.
- **Bamboo Fabric:** Soft, durable, and naturally antimicrobial, bamboo is an eco-friendly alternative to conventional fabrics.
- **Tencel/Lyocell:** A sustainable fabric made from wood pulp using a closed-loop process that minimizes waste and water usage.
- **Hemp Fabric:** Naturally biodegradable, durable, and requiring fewer resources to grow, hemp is a highly sustainable option for various types of apparel.
- **Recycled Nylon:** Recycled from plastic waste or discarded fabrics, this fabric offers durability and functionality while reducing landfill waste.

Our focus on eco-friendly finishes includes:

- **Water-based Inks:** Eco-conscious printing methods that reduce the environmental impact of dyeing.
- **Low-Impact Dyes:** Safe, non-toxic dyes that require less water and energy in the dyeing process.
- **Natural Dyes:** Dyes derived from plants, minerals, or other natural sources, reducing chemical usage.
